Epta

New life to the frozen department

BACK TO SUMMARY

GranOntario

Epta range that renews the frozen food department by increasing and optimizing the display possibilities.

Design, maximization of the food visibility, combined with great display volumes, flexibility and customization, are the peculiarities which characterize GranOntario. Hence the possibility of creating sales formats which give uniqueness to the frozen food department of each store.

GranOntario
GranDrake

PRODUCT OVERVIEW

Break out the traditional layout

The frozen food department tends to be organized according to schematic lay-outs with a strict division between horizontal and vertical food presentation.

GranOntario are an invitation to break the mold by experimenting new formats combining the horizontal display in the chest and the vertical display, with the final aim of maximizing the store turnover.

The **family feeling** between **GranOntario** islands with the vertical **GranBering** and the semi-vertical **GranSesia**, where the combination of design and essentiality emphasizes the presentation of frozen products, makes it possible to create refined, harmonious, pleasant and welcoming ambiances in stores of all sizes.

The most significant advantages compared to the previous range:

- Total glass effect: **100% of food displayed** is visible against 64% of Tortuga Ultra
- Increase in the **food volumes** displayed: **+8,75%** vs Tortuga Ultra 2000
- **Rounded End of Line** design for an enhanced harmony with the linear cabinets and to be more appealing for promotions
- Class **3L1** according to EN ISO23953-2 **at -29°C** evaporating temperature, as GranBering
- Energy efficiency: **-24% GranOntario L energy consumptions** vs Tortuga Ultra 2000

GranOntario

Total food visibility
and essential design to leave the stage to the goods and make the frozen department more attractive

High display capacity
to maximize the ratio between food volumes displayed and footprint

Great display flexibility
to adapt to different food categories and formats and to meet seasonal requirements

Rounded End of Line
designed to emphasize the area dedicated to promotions

Digitalization
integration of digital technologies to enhance cabinets functionalities, efficiency and user-friendliness

Sustainability
performance and energy saving
